

Woodfree Pallet Systems

WoodFree provides three different capacity pallets for different shipping requirements.

Light-Duty Dura Pallet LDP

- Single destination pallet for trailer-load quantity. 2000 pound even load capacity
- Cross-core corrugated deck & corrugated rails
- The LDP cross-core deck design is strong for a light-weight inexpensive pallet.

Heavy-Duty Dura Pallet HDP

- Multi-distribution fully drag-able pallet for LTL shipments
- 2000 pound even load capacity
- Cross-core corrugated deck & patented ply-wood cross rail runners
- The HDP patented ply-wood rail system gives you the drag-ability that the competition does not offer

Reinforced Multi-use Pallet RMP

- Multi-distribution fully drag-able multi-use pallet
- 4000 pound capacity. Cross-core + patented ply-wood deck. Spiral shock absorbing cushioned feet
- The RMP has the full functionality of a wooden pallet. Not only is it fully drag-able for LTL shipments but you can bolt down, strap, and lag your product to the ply-wood deck.
